All,

Attached are the DON responses to the comments provided by the USFWS regarding the biological assessment for the Marine Corps Relocation to Guam. You will be receiving a separate e-mail from AMRDEC that includes the GIS data, EndNote library, sample HACCP plan, Wildland Fire Plan for MCB Hawaii and COMNAVMAR INST 3500.4. The files were too large for me to send as part of one e-mail.

Please let me know if you have any questions regarding our responses or have difficulties downloading the data.

Thank you.

Coralie
